OUR MISSION

To provide public art and the design of public places to enhance economic growth, enrich cultural experiences and build a legacy that reflects the diversity of the Wabash Valley.

COMMUNITY ENGAGEMENT

Since 2005, Art Spaces has funded and installed 22 unique sculptures throughout Terre Haute. Of the 22 sculptures, four sculptures are a part of Terre Haute's Cultural Trail, which honors individuals, groups, and icons that had a noteworthy impact on our community and beyond, through works of public art.

Our unique approach to design and placemaking relies heavily on community engagement. Through public talks and listening sessions, we encourage residents to be active partners in imagining community spaces. These strong collaborations include government entities, business, corporations, foundations, educational institutions, artists, and designers. Together, we transform sites into lively and compelling public places that attract and retain residents and businesses.

WHO WE ARE

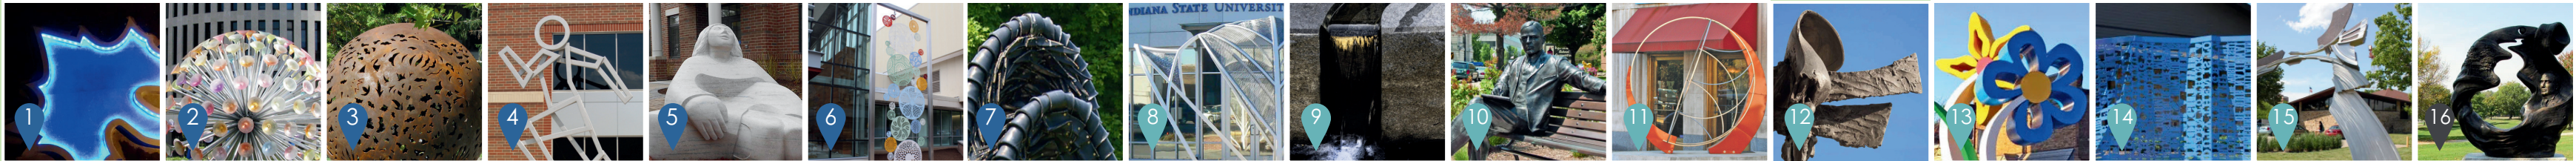

Art Spaces brings public art and the design of public places to spaces in the Wabash Valley to enrich cultural experiences, enhance economic growth, and build a legacy that reflects our community. We redefine streetscapes, parks, campuses, and community spaces into places of reflection, inspiration, and pride.

MAKE AN IMPACT

DONATE

Indiana State University
